

**Briana, a 15-year-old female is requesting an IUD and does not have the consent of her parent. What do you do?**

- Tell the patient that she has to come back with a parent's consent.
- Inform the patient that you can and will perform the procedure but must call a parent to notify them.
- Explain to the patient that you can perform the procedure without parental consent, but her parents may receive an Explanation of Benefits.

**Answer: (c.) Explain to Briana that you can perform the procedure without parental consent, but her parents could receive an Explanation of Benefits.**

**Michael is 14 and is requesting a chlamydia test. He doesn't want to tell his dad, who's in the waiting room. Does he need consent from his father?**

- Yes
- No

**Answer: No. Minors may consent on their own to testing and treatment of sexually transmitted infections. Maintaining client confidentiality can be an important part of insuring access to care and a health care provider who treats a minor ordinarily must not notify the minor's parent or guardian about the treatment without the minor's express permission.**

***Remember, it's best practice in many cases for a provider to encourage teens to talk to their parents/guardians, even if consent is not required. Encouraging this dialogue can be an opportunity to set up successful parent/teen communication.***

Jade is 16 years old. Can she receive a pregnancy test AND prenatal care without her parents' consent?

- a. Yes
- b. No

**Answer: Yes. Georgia law specifies that minors are able to consent to any surgical or medical treatment or procedures in connection with pregnancy, prevention of pregnancy, or childbirth.**

Which of these options below DO NOT require parental consent for a teen living with her parents?

- a. HPV vaccine
- b. ADHD medication for a 13-year-old
- c. Treatment for drug abuse or alcohol
- d. Admission to an inpatient mental health facility

**Answer: (c.) Minors may consent to outpatient treatment of controlled substances or alcohol. All other options require a parent's consent.**

***Remember, it's best practice in many cases for a provider to encourage teens to talk to their parents/guardians, even if consent is not required. Encouraging this dialogue can be an opportunity to set up successful parent/teen communication.***

**Carlos is 14 years old and needs mental health care. Which of these statements is true for him?**

- He can consent to outpatient counseling without his parent's consent
- If he needs to, he can consent to depression medication without his parent's consent
- He needs to get his parent's consent for any sort of mental health treatment.

**Answer: (c.) Minors need parental consent for inpatient and outpatient mental health screening and treatment unless an emergency requires it to prevent serious injury or save the life of the minor.**

**Which of the following require parent/guardian consent?**

- Emergency care
- Any care for legally emancipated minors
- Contraceptives
- Vaccines
- Treatment for HIV
- Outpatient substance use treatment

**Answer: (d.)**

- Vaccines, including the HPV, require parental consent.**

***Remember, it's best practice in many cases for a provider to encourage teens to talk to their parents/guardians, even if consent is not required. Encouraging this dialogue can be an opportunity to set up successful parent/teen communication.***
